

**DANH SÁCH CÁC BÀI BÁO  
ĐƯỢC CẬP NHẬT TRÊN MATHSCINET  
TRONG NĂM 1998**

1. [Ang, Dang Ding; Ikehata, Masaru; Trong, Dang Duc; Yamamoto, Masahiro](#) Unique continuation for a stationary isotropic Lamé system with variable coefficients. *Comm. Partial Differential Equations* 23 (1998), no. 1-2, 371–385. [35J45 \(35B60 73C02\)](#)
2. [Dang Dinh Ang; Nguyen Hoi Nghia; Nguyen Cong Tam](#) Regularized solutions of a Cauchy problem for the Laplace equation in an irregular layer: a three-dimensional model. *Acta Math. Vietnam.* 23 (1998), no. 1, 65–74. (Reviewer: Serge Lvin) [35R25 \(35J25\)](#)
3. [Ang, D. D.; Pham Ngoc Dinh, A.; Thanh, D. N.](#) Regularization of an inverse two-phase Stefan problem. *Nonlinear Anal.* 34 (1998), no. 5, 719–731. (Reviewer: Galina I. Bizhanova) [35R35 \(35K10 80A22\)](#)
4. [Long, Nguyen Thanh; Nghia, Nguyen Hoi; Khoi, Nguyen Kim; Ruy, Dinh Van](#) On a system of functional equations. *Demonstratio Math.* 31 (1998), no. 2, 313–324. (Reviewer: Jianguo Si) [39B12 \(39B22 39B52\)](#)
5. [Long, Nguyen Thanh ; Binh, Duong Thi Thanh; Diem, Tran Ngoc; Ruy, Dinh Van;](#) On nonexistence of positive solution of a nonlinear Neumann problem in half-space  $\mathbb{R}^n_+$ . *Demonstratio Math.* 31 (1998), no. 4, 773–782. [35J05 \(35J65\)](#)
6. [Nguyen Thanh Long ; Nguyen Hoi Nghia;](#) On a nonlinear boundary value problem with a mixed nonhomogeneous condition. *Vietnam J. Math.* 26 (1998), no. 4, 301–309. [34B15](#)
7. [Dinh, Ngoc Thanh ; Nguyen, Van Nhan;](#) Determination of mass density inhomogeneity from gravity gradient measurements. Proceedings of the International Conference on Inverse Problems and Applications (Quezon City, 1998). *Matimyas Mat.* 21 (1998), Special Issue, 119–122. [86A20 \(45A05\)](#)
8. [Trong, D. D.](#) Domain identification for a nonlinear elliptic equation. *Z. Anal. Anwendungen* 17 (1998), no. 4, 1021–1024. (Reviewer: George Dassios) [35R30 \(35J60\)](#)
9. [Dang, Duc Trong; Tran, Thi Le; Nguyen, Van Nhan; Dinh, Ngoc Thanh;](#) A moment approach to some problems in heat conduction. Proceedings of the International Conference on Inverse Problems and Applications (Quezon City, 1998). *Matimyas Mat.* 21 (1998), Special Issue, 148–153. [35R30 \(35K05\)](#)
10. [Nguyen Bac Van \(VN-HCMC\)](#)

Strong consistency of least squares estimates and mean square regression. (English summary)

*Acta Math. Vietnam.* 23 (1998), no. 2, 195–205.
