DANH SÁCH CÁC BÀI BÁO
ĐƯỢC CẬP NHẬT TRÊN MATHSCINET
TRONG NĂM 2001

1. Dang Dinh Ang ; Le, Vy Khoi; Contact of a viscoelastic body with a rough rigid surface and identification of friction coefficients. *J. Inverse Ill-Posed Probl.* 9 (2001), no. 1, 75–94. (Reviewer: George Jaiani) 35Q72 (35A35 74D99 74G75 74M15)

2. Dang Dinh Ang Addendum to: "Detection of cavities in solids and solutions of elliptic equations and systems" [Vietnam J. Math. **29** (2001), no. 1, 1–14; MR1933912 (2003j:74024a)]. *Vietnam J. Math.* 29 (2001), no. 3, 293. 74G75 (35J55 35J60 35R30 78A55 86A20)

3. Dang Dinh Ang Detection of cavities in solids and solutions of elliptic equations and systems. *Vietnam J. Math.* 29 (2001), no. 1, 1–14. 74G75 (35J55 35J60 35R30 78A55 86A20)

4. Hung, Nguyen Xuan ; Yen, Nguyen Dong; A criterion for the compactness of the solution set of a linear complementarity problem. *Fixed point theory and applications. Vol. 2 (Chinju/Masan, 2000),* 135–141, *Nova Sci. Publ., Huntington, NY,* 2001. 90C33 (90C31)

5. Phan Quoc Khanh; Le Minh Luu Necessary optimality conditions in problems involving set-valued maps with parameters. Dedicated to Pham Huu Sach on the occasion of his sixtieth birthday. *Acta Math. Vietnam.* 26 (2001), no. 3, 279–295. (Reviewer: Đinh Thế Luc) 90C29 (49J53 49K27 90C46)

6. Long, Nguyen Thanh; Bergounioux, Maïtine; Dinh, Alain Pham Ngoc Mathematical model for a shock problem involving a linear viscoelastic bar. *Nonlinear Anal.* 43 (2001), no. 5, Ser. A: Theory Methods, 547–561. (Reviewer: Renuka Ravindran) 74D05 (35L20 35L67 35L70 74H20 74H25)

7. Long, N. T.; Bergounioux, M.; Dinh, A. P. N. Erratum: "Mathematical model for a shock problem involving a linear viscoelastic bar". *Nonlinear Anal.* 44 (2001), no. 5, Ser. A: Theory Methods, 703. (Reviewer: Renuka Ravindran) 74D05 (35L20 35L67 35L70 74H20 74H25)

8. Long, Nguyen Thanh Asymptotic expansion of the solution for nonlinear wave equation with the mixed homogeneous conditions. *Nonlinear Anal.* 45 (2001), no. 3, Ser. A: Theory Methods, 261–272. (Reviewer: Olivier Lafitte) 35C20 (35B45 35L70)

9. Long, Nguyen Thanh; Linh, Nguyen Vu Duy The Carleman's inequality for a negative power number. *J. Math. Anal. Appl.* 259 (2001), no. 1, 219–225. (Reviewer: P. S. Bullen) 26D15

10. Thanh Long, N. ; Thi Thanh Binh, D.; Pham Ngoc Dinh, A.; Linear recursive schemes associated with the nonlinear wave equation involving Bessel's operator. *Math. Comput. Modelling* 34 (2001), no. 5-6, 541–556. 35L70 (35A35 65M60)

11. Long, Nguyen Thanh; Dung, Bui Tien; Nghia, Nguyen Hoi; Thuyet, Tran Minh On a nonlinear boundary value problem with a mixed nonhomogeneous condition: asymptotic behavior of solutions. *Demonstratio Math.* 34 (2001), no. 3, 609–618. 34B15 (34D05)

12. Long, Nguyen Thanh; Binh, Duong Thi Thanh On the nonexistence of positive solution of a

nonlinear integral equation. *Demonstratio Math.* 34 (2001), no. 4, 837–845. 45G05

13. Trong, D. D. Crack detection in plane semilinear elasticity. *Z. Anal. Anwendungen* 20 (2001), no. 3, 755–760. 74G75 (35Q72 35R30)

14. Bac-Van, Nguyen [Nguyen Bac Van] Consistency of least squares estimates in a system of linear correlation models.(Englishsummary)

Dissertationes Math. (Rozprawy Mat.) 395 (2001), 44 pp.
